About the competition

From the early days of cinema, we've been giving films age ratings on our famous Black Cards. Now, we're giving you a chance to design a Black Card yourself - and see your idea on the big screen in front of the next big summer blockbuster.

This year, your creation could be seen on a special Black Card displayed in cinemas before every showing of *Jurassic World Dominion* - people all over the country will see it. It's a unique opportunity to have your picture and your name up in lights.

Here's the Black Card from Universal's *Jurassic World* to show you where all the information will be!

Instructions

Send us your submission on a landscape A4 piece of paper - you can use any technique you like, but the more creative, the better. It must be all your own work, and we can't accept any entries that use images taken from films or online.

As your design will become the real Black Card, please remember to leave a space for the BBFC logo and the title of the film. We will add in the other important information (the signatures of our CEO and President who approve each decision, the film's unique code, and our BBFC ratings info).

When your creation is complete, post your original entry to the BBFC London offices:

Use this space to design the BBFC Black Card for Universal Pictures' *Jurassic World Dominion*

Bright, colourful designs that fill the box will produce the best results:
- Use paint, felt tip, crayon, inks and coloured pencils. Please do not use loose glitter in your designs.
- If you are doing a collage, please do not make the sheet thicker than 2 pieces of paper.
- Please don't fold the artwork, or use staples or sellotape.
- Avoid metallic finishes over large areas.
- Pale coloured pencils on a white background do not reproduce well.
